

Hamza Shaikh

Backend / Infrastructure / SRE Engineer

Kaiserslautern | Dammam | Mumbai | er.hamzashaikh@gmail.com

PROFILE

Infrastructure engineer focused on reliability, observability, and operational ownership.

M.Sc. Computer Science candidate with distributed systems focus and production DevOps ownership.

EXPERIENCE

Patil Kaki - DevOps Intern / Sole Infrastructure Owner Jun-Aug 2023

- EC2 to ECS/Fargate migration with zero-downtime cutover.
- GitHub Actions gated deploys with rollback on health check failure.
- BullMQ/Redis async queue, CloudWatch + ALB observability, 25% OpEx reduction.

CMP Infotech - Java Intern Dec 2021-Jan 2022

- School management system with Java Swing, MySQL, JDBC, and access control.

PROJECTS

SentinelSOL - Out-of-band observability for Solana/Jito validators.

Go daemons, Prometheus, PromQL 3-sigma Z-Score alerting, Alertmanager, Telegram.

AutoSRE - Self-healing SRE platform with automated recovery.

FastAPI control plane, RED metrics, Docker Compose, GitHub Actions CI/CD.

GridCast - LSTM-based regional temperature forecasting system.

TensorFlow/Keras, Optuna TPE, Flask API, React, GeoPandas. IEEE ICSPCRE 2024.

EDUCATION

RPTU Kaiserslautern-Landau - M.Sc. Computer Science, Distributed Systems 2025-2027

Xavier Institute of Engineering - B.E. Information Technology, CGPA 8.69/10 2020-2024

SKILLS

Go, Python, Bash, C++, Docker, Kubernetes, Terraform, Linux, AWS, GCP, Azure, OCI,
Prometheus, PromQL, Grafana, Alertmanager, FastAPI, Redis, BullMQ, MySQL, GitHub Actions.
